### **BAUDIN CHATEAUNEUF: Company profile**

City: **St-Herblain (Pays de la Loire)**

Activity: **Electricity/Automatism**

**Metalwork/Mechanics**

Manager: **Nicolas Lucas**

#### ***Presentation of the Project's Partner Company:***

Originally founded during the booming of metal frame in 1919, the company BAUDIN CHATEAUNEUF diversified its activities in accordance with the situations. It multiplied its fields of expertise and is now able to provide for around thirty construction industry related activities.

The agency in Saint-Herblain was created with the purpose to add complementary expertise in the fields of mechanics, electricity and automatism. It has a 700 m<sup>2</sup> (837 yd<sup>2</sup>) office and a 2,200 m<sup>2</sup> (2,630 yd<sup>2</sup>) workshop at its disposal. These allow it to design and manufacture fuse box and mechanically welded assemblies from its design office. It also owns containers equipped for on-site assembling, trials and start-ups.

#### ***Involvement in the project***

- Studying, designing, providing and assembling the articulation system (axis, ball joint and thresholds)
- Manufacturing and machining the steel mast
- Assembling the mechanical systems.
- Studying, providing and assembling the metalworking
